

# Noosaville Foreshore

## October 2024

## Thank you for your feedback

Earlier this year, we asked for your views on the Draft Noosaville Foreshore Master Plan.

Your interest was evident in the volume of submissions across the Your Say Survey, emails, letters to Council and social media commentary.

We appreciate the time you have taken to participate and share your thoughts. We have listened and acknowledge that an updated draft is needed. We are using your feedback to drive the revised Master Plan.

We heard a strong desire to maintain the relaxed Noosaville vibe we all know and love. There was also recognition that maintenance upgrades will be needed over the next twenty years.

Council is translating your feedback into a revised draft.

## Why we need a Master Plan

A Master Plan is a long-term vision for the future that will help us to plan much-needed maintenance and infrastructure upgrades. Importantly, it provides a plan we can use to seek significant sums of external grant funding.

We are currently facing an infrastructure and parks maintenance schedule forecast to cost at least \$10million over the next 20 years. For example, the shoreline has heavily eroded drop-offs in parts and stormwater drainage infrastructure is more than 50 years old and needs to be replaced.

## What's next?

To ensure that the community's values are at the heart of the Noosaville Foreshore Infrastructure Master Plan, we will be **bringing a revised draft back to you for another round of feedback in November 2024 (timing is subject to council endorsement of the new draft plan)**. We're also talking with key stakeholder groups about the plan outcomes that directly impact them.

We will have a series of information sheets that will summarise your feedback and what we have changed for your consideration.

This will include things like why a Master Plan is important to save money in the long run for rate payers, what a long-term time frame in a Master Plan means and more detail on the key things you said were important in the previous round of engagement.

We are aiming to present you with a clearer, simpler Master Plan document and concept images.

## Want to know more?

**If you would like to know more information, please visit the Your Say Noosa Project Page.** This page will host all information and updates on the Noosaville Foreshore Infrastructure Master Plan as they are released. The dates for the next round of engagement will be posted in the coming weeks.
