

## Shenton Park Local Heritage Survey (LHS) Places

### Levels of significance

*When the LHS was last reviewed in full in 2002 the Shenton Park Precinct was included as a Conservation Area on the LHS and all individual places were assigned a level of significance based on the contribution that they made to the heritage values of the Conservation Area.*

*These levels were referred to as Level 1, Level 2 and Level 3 Residential Conservation Area (RCA).*

*Since 2002 the City has used new levels of significance based on the levels recommended by the Heritage Council of WA. These levels are outlined in **Table 1** below.*

<b>Table 1 – Current Levels of significance</b>	
<b>Level of significance</b>	<b>Description</b>
Exceptional Significance (Level 1)	Essential to the heritage of the City of Subiaco. High level of cultural heritage significance. High degree of authenticity. Rare or outstanding example.
Considerable significance (Level 2)	Very important to the heritage of the City of Subiaco. High level of aesthetic, historic, scientific and/or social value for the local community and/or a rare or key representative example of its type.  These places will typically have a high degree of authenticity, but may still be very important to the heritage of Subiaco even if some alterations have been undertaken, provided these do not obscure an understanding of the cultural heritage values of the place.
Some significance (Level 3)	Contributes to the heritage of the City of Subiaco. Helps to illustrate an important aspect of the history of the City, but: <ul style="list-style-type: none"> <li>• does not have important associations with prominent people, events and/or activities;</li> <li>• does not have landmark or other aesthetic values that make an important contribution to the districts sense of place; and</li> <li>is not a key representative or rare example of its type.</li> </ul>
Little significance (Level 4)	Has elements or values worth noting for community interest but otherwise makes no contribution.

*Preliminary heritage surveys, undertaken since 2002, have resulted in some inclusions on the LHS and/or amendments to the levels of significance of some places to reflect the City's new levels of significance.*

***As part of this LHS review all places currently on the LHS, will be reviewed and allocated a new level of significance in accordance with the City's current levels (Table 1 above).***
